

Compromise, Debates, Promises and Lies

Sounds like the perfect plot for a great Hollywood espionage story during World War II, unfortunately it's not, it's happening right here, right now in America! Will the next compromise be deadly for God's people?

January 2010

I hope that caught your attention. That has been the steady diet being fed to mainstream America for quite some time. Is it any wonder that Uncle Sam is in the shape he is in?

Somewhere back in 1972 when I first came into the church, I remember a sermon and an article of how Uncle Sam is sick. It has stayed with me from then till now, especially as I watch him getting sicker and sicker every year. Recently I came across the picture below that brought the story back to the forefront of my mind.

The cancer that is eating at the heart of America continues to spread. Never has God's Word been more true and more pertinent than it is at this present time. The Bible tells us, "for all seek their own, not the things which are Jesus Christ's" (Philippians 2:21) Isaiah prophecies; "The whole head is sick, and the whole heart faints, from the sole of the foot even to the head, there is no soundness in it..." Is. 1:5-6

Speaking of no soundness in it, please allow me a few moments of levity: I just heard that Washington has decided that they will not have a nativity scene in Washington, DC this year. It had nothing to do with religion, but it has been rumored that they couldn't find three wise men for the nativity scene. Sorry about that, I just couldn't resist.

Take a moment to consider those who are voted into office, and how they make their decisions. This is especially important now because as I write, I'm watching America's temperature on the thermometer rise. Oh, I'm sorry, that's not the thermometer it's the U.S. debt calculator. It just keeps going up, and up, and up; seems to me it's moving faster each day as I watch it.

But I'm sure that can't be true because, well, because we are all being told that the spending is now under control, we've turned the corner on the economy, and we are witnessing the greatest economic turn around in modern day history. I'm sure that's what I heard. No doubt you've been

told that also. I'll sleep better just knowing that.

The 17 million Americans that are out of work will also sleep much better, at least those who haven't lost their homes as yet will sleep much better. I guess the news hasn't reached everyone about the prediction of hundred's of other banks that are anticipated to close this coming year as a result of the millions of more Americans that are now in the process of foreclosure on their homes. This will trigger those predicted bank failures as a result of those failed loans. I'm sure it's just an oversight that they didn't get the news about the greatest turn around in the economy in modern day history. The news isn't telling that story.

Enough of the levity, seriously, back to the soundness of our government; as I understand it, now let me be sure I've got this correct, "we are going to spend our way out of debt." Yes, that's it, we are going to spend our way out of debt. I'm hoping there is a way we can do this on a personal level like our government. We can simply spend our way out of debt. Did I mention congress just agreed to a 447 billion dollar spending bill on Sunday Dec 13, and now have to vote to raise the debt ceiling another 2.3 Trillion over the already 12.1 Trillion dollars? Marvelous idea, when you run out of

money you simply raise your debt level, print more money and you are back in business. Works for me! The only difference is, when you or I print money we don't have, it is illegal and you go to prison. When the government does it, well, let's see, it's called fiscal responsibility. Yes, that makes perfect sense. But, I think the government forgot to tell China, Japan, and the other nations that continue to buy the newly created debt. The other countries that are buying our record debt are really upset about those printing presses running day and night. A price will be paid!

Enough for the digressing and sarcasm - back to the question on how politicians make their decisions. They must first protect their jobs, so they can't vote on any-

Is Uncle Sam on his death bed? He seems to always recover from his ailments, but can he this time?

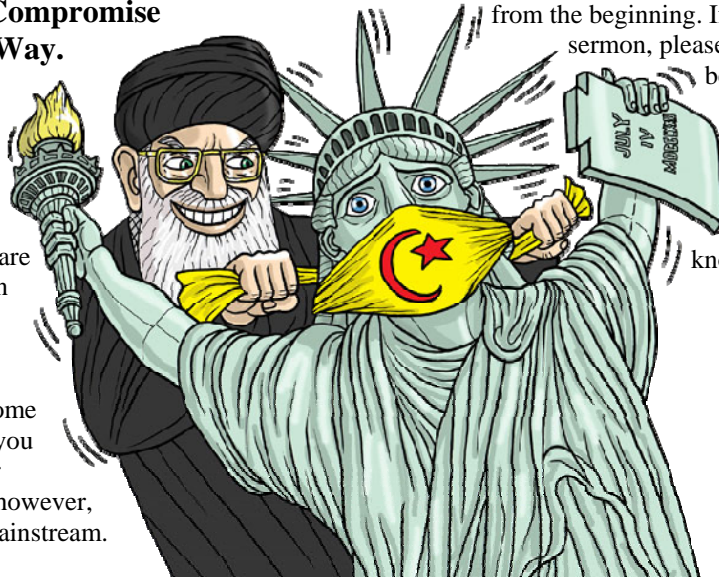

thing that may affect their reelection. It doesn't matter if it will hurt the country. In their mind, if they get reelected (at all cost or compromise), they can fix what ever they compromised on later. Next comes the party they belong to. They have to protect the "party", if they don't the villains on the evil side will get in and then it will be too late to fix the problems. Finally comes the country, by protecting the party and having control, they believe they will have the opportunity to fix or get for them what they need, the mess can be fixed later. After all the thinking is, the country will always be here. Another way of putting it; me, mine, and ours first! It all begins with those who are in charge and the decisions centering around, Compromise, Debates, Promises and Lies. I say this with all seriousness!

There's only one way to truly know who is telling you the truth, the same way Jesus told us from His Holy Word, "by their fruits." Let's look at the fruits, have we turned the corner, are things getting better? Watch the bottom line, you will find that the U.S. debt continues to rise at an ever increasing pace - that will only get worse. Better? You tell me.

The Dangerous New Compromise Heading Our Way.

This leads me to the final, and my most important point of this newsletter. The **compromise of beliefs** and the **change in laws** that now protect us. The same people who are in charge of running our nation are the same people who are slowly, but steadily selling us, "the elect" out.

Freedom of speech has become a relative term. It now means you have the right to promote your views via freedom of speech, however, your views must agree with mainstream.

To raise your voice in support to obeying God's laws is now considered religious bigotry and personal hatred. You are now labeled as homo-phobic, and Islam-phobic. That attitude is growing and so is the vocal opposition to the promoting of God's laws. We are witnessing the beginning of change in the laws that once protected us, to laws that will condemn us.

Notice the news on the international front, the U.N Resolution called, "**Defamation of Religions**" - a measure which would criminalize Christians around the world for evangelism. A full U.N. vote on this measure is expected very soon. Islam, the primary backers promoting this resolution continues to be on the rise. The change in laws in this resolution being promoted are taking the freedom to preach the "True Gospel of Jesus Christ," from the Elect, while promoting freedom to promote other religions, namely, Islam.

I cover this in detail in a new three part sermon I have just concluded. Part one will be out by the time you receive this letter. I've changed the title, of "The Two Seeds," to "The Two Seeds, The Rise of Islam." What mainstream Christianity does not understand, is that this rise of Islam was predicted from the beginning. If you haven't written for this sermon, please don't hesitate, do it today. I believe it will enlighten you in ways you may not have ever considered.

Send today for Part Two, don't delay. If you didn't get Part One please let us know.

In Jesus name,

Tom
Tom Kerry

PLEASE NOTE:
By the time you receive this newsletter most of you should be receiving part one of;
The Two Seeds
"The Rise of Islam"
Response to part one of The Two Seeds from those who have already had the opportunity to view it has been positive and encouraging. Because of the strong response we decided to step up our mailing of part two of the series. If you would like to receive part two, mail the enclosed card today.
